JOHN J. ZIMMERMAN
PRIMARY EXAMINER

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: A review of the claimed subject matter shows that the flat faces on the distal ends of the plurality of protrusions, having undercuts which are progressively spread outward from the surface, do indeed contribute to a function not shown or made obvious in the prior art (e.g. see page 5, first full paragraph). Regarding the rejection under 112, first paragraph, a review of the general state of the art shows that applicant's generic disclosure of "parting agent" and "surface active agent" is sufficient since these are indeed well understood terms in the art and the function of these agents is well understood. The general state of the art is sufficient to enable one of ordinary skill in the art to practice the invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John J. Zimmerman whose telephone number is (571) 272-1547. The examiner can normally be reached on 8:30am-5:00pm, M-F. Supervisor Jennifer McNeil can be reached on (571) 272-1540. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
